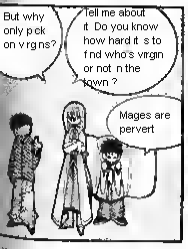
There were skulls and bones everywhere it must have been the vrgns

I am tellg you that I am not doing ths because I like it
Ahah I thnk I am getting the pcture now

The mountain God is probably a mage
Who has become immortal
Immortal?
It's when a mage uses a forbidden magic and tries to live forever

A powerful magic but it carries awful side effects
In some of worse cases, they end up becoming a kind of vampire to suck energy from other human being. In other words, they will no longer be humans



But why only pick on virgins?
Tell me about it. Do you know how hard it is to find who's virgin or not in the town?
Mages are pervert
